

Chief Executive Officer

Exceptional opportunity to join a life science technology leader in the early growth stage as CEO.

The founding team, currently leading the company, has an exceptional experience in innovation and development of CRISPR gene editing and screening technologies. An outstanding manager is sought to complement the team to professionalize and accelerate business growth.

Vivlion is a Frankfurt-based company who is globally serving CRISPR reagents and services. We were spun out of Goethe University and are holding exclusive licenses to the innovative 3Cs technology for next generation CRISPR reagents. We are the only commercial providers of combinatorial CRISPR libraries, with our multiplexing technology breaking new grounds in the field. Our customers are researchers in biotech/pharma industry with a primary focus on the US and the European markets. Today we serve our customers directly and via a marketing partnership with Twist Biosciences, San Francisco.

Your responsibilities:

- Build & lead a dedicated Vivlion team
- Implement processes to facilitate rapid scale-up
- Drive the company strategy with a focus on market development
- Broaden the network of key customers and strategic partners
- Overview and lead the expansion of a new production site

Your profile:

- Outstanding business and/or scientific background
- High aspirations and operating with strong results orientation
- Track record in (project) management and business building
- Excellent leadership skills and hands-on manner
- Ability to travel globally as required

If you are interested in being part of the exciting journey of Vivlion, please forward your application with cover letter, CV, references in one pdf to careers@vivlion.de. Vivlion is an equal opportunity employer and considers all qualified applicants.

Vivlion GmbH – complexity meets simplicity.
